

ROE PROCESSING / SEPARATION

SALMON ROE SEPARATOR

NRS-500

LENGTH	1,949 mm
WIDTH	1,391 mm
HEIGHT	1,586 mm

POWER SUPPLY	2,05 kWt
WATER CONSUMPTION	10-40 l/min

ADVANTAGES:

HIGH EFFICIENCY - 500 KG/H

INCREASED YIELD - OVER 75%*

EASE OF OPERATION

CAPABLE OF PROCESSING BOTH FRESH AND FROZEN FISH

SIGNIFICANT REDUCTION OF MANUAL LABOR
NRS-500 - 2 OPERATORS

* The quality of the finished product depends on the quality of the product being processed.

The **NRS Separator** is a high-performance machine that gently and quickly separates eggs from skein using a unique patented technology. Only two operators are required to ensure high productivity up to 500 kg/h with minimal loss.

The **NRS Separator** completely eliminates manual labor. All materials used in the separator possess antibacterial properties. The Separator is designed such that disassembly and maintenance are possible without the use of special equipment.
